

Home ownership might be closer than you think

If you're currently renting, our Track Record mortgage could help you into a home of your own.

With our Track Record mortgage you'll need to commit to paying a fixed rate of interest for 5 years. This means that even if other interest rates go up or down during that time, your interest rate won't change.

Step One: Find out if you're eligible

This mortgage might be suitable for you if you meet all the following:

- Each applicant is 21 or older
- You haven't owned a property in the UK or abroad in the last 3 years
- You can prove that all rent has been paid either by one applicant or collectively for 12 months in a row, within the last 18 months
- You have less than 5% deposit
- You're looking to borrow up to £600,000
- Each applicant has no missed payments on debts/credit commitments (e.g. mobile phone bill) over the last 6 months
- You're not looking for a mortgage term beyond your expected retirement age
- You're not looking to buy a property in Northern Ireland.

Sole Applicants

- You've paid all rent for 12 months in a row, within the last 18 months. We may also want to see proof of payments of household bills.

Joint Applicants (up to 4 people)

- You can prove that all rent has been paid either by one applicant or collectively for 12 months in a row, within the last 18 months.
- If you've been renting separately you can prove that you have paid all your rent.
- In either case we may also want to see proof of payments of household bills.

Step Two: Use our Affordability Calculator

If you meet all of our eligibility criteria, the next step will be to use our Affordability Calculator which will give us a more detailed view of your situation and how much we could potentially lend you based on your current income and outgoings.

Max loan amount

£

Step Three: Request a Decision in Principle

If the amount you could borrow is enough for the property you'd like to purchase, you can request your Decision in Principle (DIP). Many sellers or estate agents will ask to see a DIP as assurance that you could get a mortgage. It is for illustrative purposes only and doesn't provide all the information you need to choose a mortgage.

Step Four: Apply for a mortgage

Once you have your DIP, you will need to find a property you want to buy and have had an offer accepted on it. You will then be able to book a full mortgage advice appointment.

Important points to consider before applying

You need to make sure you're aware of the potential impact having a zero or minimal deposit could have, as there is a higher risk of negative equity. You would be in negative equity if you owe more on your mortgage than what your house is worth.

You could lose your home if you don't keep up your mortgage repayments.

Visit our website: skipton.co.uk/track-record to find out more about our full eligibility criteria.
